

ICS Lifetime Achievement Awards criteria and required details

The nomination should be made by a life member of ICS. Self-nomination is not allowed.

The Nominee should be recognized by the respiratory sciences fraternity for having made outstanding contributions at the national/ international level in the field as a clinician, teacher, mentor or researcher.

It will cover both clinical and basic sciences related to pulmonary medicine, tuberculosis or critical care.

The individual should have made tangible contributions to the ICS in some form.

The nominations will be evaluated by the ICS Awards Committee.

The nominees should have been a life member of the ICS and should have served the field for at least 25 years to be considered for the award.

Also, the nominee should not have previously received the ICS Lifetime Achievement Award.

Following details are required with each nomination:

A cover letter from the nominating member describing, why the nominee merits consideration for this award, substantiating the achievements of the nominee.

It may include support letters from other members/ individuals who have first-hand knowledge of the contribution or from organizations that the individual was associated with.

The letter should attest that the nominee has not previously received this award.

A copy of the Nominee's curriculum vitae, clearly capturing the details of service beyond the training.
